Dear Mr Lich

Appeal in terms of section 12 of the regulations: control of vehicles in the costal zone (government notice no. R 1399 of 21 December 2001), as amended ("the orv regulations") against the authorisation for a boat launching site at the Suiderstrand slipway, Suiderstrand

I Hannes Kleinhans community member of Suiderstrand refer to the public meeting held at Struisbay library on 19 th November 2011. I confirm that the appellant Mr. van der Byl (Suiderstrand Boat Club) as well as the community of Suiderstrand were present.

Apart from one objector Mr. van Gass everybody of the community present was in favour of authorisation of the launching site of the existing boat club at Suiderstrand. Mr van Gass did not want to discuss his appeal at the meeting due to so called personal attacks against him. He is the only community member out of four staying in Vleilaan (way to launching site) who has objections regards the launching site.

We as the community want to reach as soon as possible an agreement with the Suiderstrand boat club on the management and operation of the boat launching site. We shall all assist in enforcing and complying with the agreement. As far as I know the launching site is in use for more than 30 years and this is the first ant only objection against the site. The delaying of the authorisation costing money and time because on one man's objection and without any merits or facts.

The main reason for many community members having property at Suiderstrand is the advantage of launching their boats without the traffic like at Struisbay harbour and enjoy their hobby like fishing or diving. By having a launching site it can be an advantage and can be used in case of emergency for sea rescue.

I can't see Suiderstrand a little coastal town without a boat launching site and I hope my writing will help with the authorisation of our launching site.

Kind regards

Hannes Kleinhans
