BOAT LAUNCH SITE, SUIDERSTRAND

15 November 2011

**THE MINISTER OF LOCAL GOVERNMENT, ENVIRONMENTAL AFFAIRS &
DEVELOPMENT PLANNING.**

TO WHOM IT MAY CONCERN:

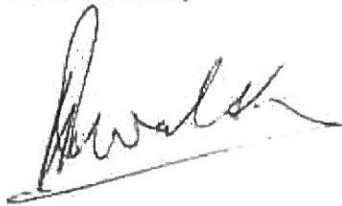

We, the owners of 129 & 130 Vleilaan, Suiderstrand, L.P. & M.P. Walsh comment as follows on the above topic:

1. Launching of boats is limited to a few vessels, mostly over week ends during the summer months and causes no damage to coastal vegetation or bird life at the site.
2. Now that boat access is regulated, trailers are parked away from the launch site and boats are launched and beached in a professional manner, causing no inconvenience to anybody.

We therefore support the regulatory system in place at present and trust that the Boat Club will be permitted to operate unhindered in the future.

After all, why should tourism only serve the commercial interests of certain individuals while ignoring the recreational enjoyment of others?

Yours faithfully

M.P. Walsh,
